

PORTACUT

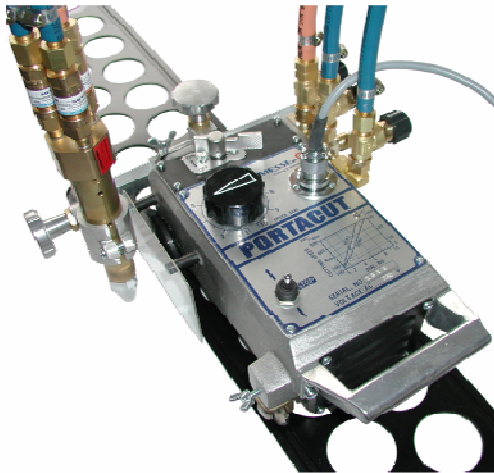

PORTABLE GAS CUTTING MACHINE

THE COMPACT
MOTOR DRIVEN GAS CUTTING MACHINE
FOR
STRAIGHT, CURVE, CIRCLE, BEVEL
AND MULTI-BEVEL FLAME CUTS

Portable automatic gas cutting machine *PORTACUT*

The low cost alternative for high quality value.

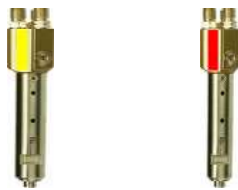

- For straight, curve, circle, bevel and multi-bevel cuts.
- Functions control by forward/off/reverse switch, clutch lever and speed adjustment knob.
- Power source: AC 230V, 50/60Hz
- Motor: Condenser-induction, AC 230V, 10 W
- Weight: 9,5 kg/20.9 lbs.
- Speed control: Single cone system.
- Cutting thickness: 3-300 mm
- Cutting speed: 50-800 mm/min
- Strip cutting range: 80-300mm

PORTACUT machine without rail track, with one injector cutting torch for fuel gas acetylene: 716.51782

PORTACUT machine without rail track, with one injector cutting torch for fuel gas propane and natural gas: 716.51783

Rail track with interlocking sections:
length 1200 mm / 47 inches: 716.51790
length 1800 mm / 71 inches: 716.52018

Injector machine cutting torch MSZ 832/110-A for fuel gas acetylene: 716.51787

Injector machine cutting torch MSZ 832/110-PMYF for fuel gas propane and natural gas: 716.51788

Adjusting valve for heating oxygen, G 1/4 RH: 718.00500
Adjusting valve for cutting oxygen, G 3/8 RH: 718.00501
Adjusting valve for fuel gas G 3/8 LH: 718.00502

Flashback arrestor for heating oxygen, G 1/4 RH: 0.463.389
Flashback arrestor for cutting oxygen, G 3/8 RH: 0.463.384
Flashback arrestor for fuel gas, G 3/8 LH: 0.463.388

Extended rack bar: 716.51791

Counter weight : 716.51792

Circle cutting attachment, diameter 30-2400mm / 1.2-96": 716.51793

Standard hose package, 730 mm: 716.51929

Extended hose package, 950 mm: 716.51930

Cross feed torch holder for strip and multi bevel cuts 716.51794
